PROFESSIONAL SUMMARY

Senior software developer with 9+ years across enterprise ERP, SaaS modernization, financial applications, and distributed systems, including 5+ years in Senior Software Engineer roles. Experienced in REST APIs, system integration, cloud data orchestration, automated testing, CI/CD, production troubleshooting, end-to-end delivery, and developer mentoring.

CORE TECHNOLOGIES

Microsoft Stack: C#, .NET 10/.NET Core, ASP.NET Core Web API, Blazor, Angular 22, TypeScript 6, RxJS 7, WPF, EF Core
Azure & Delivery: Azure Functions/Durable Functions, Cosmos DB, Key Vault, App Service, Entra ID, Azure DevOps, GitHub Actions, CI/CD, Docker

Architecture & Integration: REST, OpenAPI, Clean Architecture, SOLID, dependency injection, microservices, event-driven systems, MassTransit, RabbitMQ

Data & Quality: SQL Server, Oracle PL/SQL, MongoDB, Redis, automated unit/API/integration testing, NUnit, Vitest, Postman, production support

MICROSOFT CERTIFICATIONS

Microsoft Certified: DevOps Engineer Expert | Azure Developer Associate | Azure Fundamentals

SOFTWARE ENGINEERING EXPERIENCE

Senior Software Engineer | Sydpro (Pvt) Ltd. | EdSmart

Jan 2023 - Oct 2025

Remote / Colombo, Sri Lanka | Australian school-management SaaS modernization

- Modernized the legacy EdSmart platform from .NET Forms to Blazor and Azure-backed services, including SQL Server-to-Cosmos DB migration and synchronization with Azure Durable Functions.
- Owned full-stack features across C#, .NET, Blazor, ASP.NET Core REST APIs, Entity Framework Core, and SQL Server using Clean Architecture and modular design.
- Secured APIs and cloud configuration with JWT authentication, policy-based authorization, Microsoft Entra ID, and Azure Key Vault, removing secrets from configuration and source control.
- Applied SOLID, dependency injection, EF Core code-first, Repository and Unit of Work patterns, centralized exception handling, and testing practices to improve maintainability and reliability.
- Delivered in an Agile environment using Jira and Azure DevOps, building CI/CD pipelines that automated application builds and deployments to Azure App Service.

Senior Software Engineer | IFS

Mar 2020 - Jan 2023

PROMOTED MAR 2020: *Software Engineer to Senior Software Engineer | Enterprise Asset Management*

- Owned complex production investigations across application, integration, configuration, log, and database layers, translating root causes into durable product fixes, regression testing, and controlled data repairs.
- Coached and mentored developers, reviewed technical approaches, and guided delivery of customer assignments for business-critical enterprise systems within service targets.

Software Engineer | IFS

Dec 2017 - Mar 2020

- Developed, maintained, and optimized enterprise ERP Asset Management modules in C#/.NET, delivering bug fixes and enhancements across Centura, IEE, and Aurena clients.
- Used Oracle PL/SQL and application add-ons for database maintenance, report creation, data classification, and controlled corrections in enterprise environments.
- Troubleshot PSO Workbench integrations, application interoperability, report models, security permission sets, and customer-specific configuration issues.

Trainee Software Engineer | Innovative-e, Inc.

Mar 2017 - Sep 2017

Colombo, Sri Lanka

- Contributed to full-stack delivery using .NET, C#, ASP.NET Web API, WPF, PHP, MySQL, HTML, CSS, JavaScript, Bootstrap, and jQuery, including requirements, estimation, refactoring, and testing.

EARLIER SOFTWARE ENGINEERING EXPERIENCE

Software Developer Intern | Pan Asia Banking Corporation PLC

Sep 2016 - Mar 2017

Colombo, Sri Lanka | Loan Insurance Management System

- Built a C#/.NET and Oracle loan-insurance application supporting insurance selection and administration within a banking environment.
- Implemented workflows for premiums, mortgages, commission payments, and policy-expiry tracking, contributing across development, database work, and testing.

SELECTED ENGINEERING PROJECTS

EasyShopper Modernization | Independent Project

Aug 2026

.NET 10 | ASP.NET Core | MassTransit | RabbitMQ | MongoDB | Redis | Ocelot | Docker | GitHub Actions

- Modernized an 18-project event-driven e-commerce solution from .NET Core 3.1/.NET Standard 2.0 to .NET 10, upgrading dependencies and eliminating vulnerable packages.
- Containerized nine APIs plus RabbitMQ, MongoDB, and Redis; retained Ocelot and MassTransit Courier workflows; and added GitHub Actions build, test, container, and vulnerability gates.

Northstar Housing Marketplace | Independent Angular Modernization

Aug 2026

Angular 22 | TypeScript 6 | RxJS 7 | REST | Typed Forms | Vitest | GitHub Actions | Azure Pipelines

- Modernized a legacy Angular 13 property application to Angular 22 using standalone components, lazy routes, strict TypeScript models, and typed reactive forms.
- Implemented RxJS-driven search/filter/sort state, typed REST GET/POST workflows, validation, route-based details, and automated HTTP tests.
- Added GitHub Actions and Azure Pipelines quality gates for dependency installation, formatting, automated tests, production builds, and artifact publication.

ADDITIONAL TECHNICAL EXPERIENCE

Software Tester (Part-Time) | Spark Business Solutions Ltd.

Nov 2025 - Present

Surrey, BC, Canada | Test Automation & Quality Engineering | Web, mobile, API, and integration testing

- Design and execute automated and manual functional, regression, integration, performance, and cross-platform tests; review requirements and create risk-based test coverage.
- Validate REST APIs and secure financial-intake integrations with internal CRM systems, investigate defects using Postman and Chrome DevTools, and collaborate with developers to verify fixes.
- Develop and maintain automated test scripts and support release readiness through defect verification across frontend, backend, and integration workflows.

EDUCATION

Computer Science: Web & App Development | LaSalle College Vancouver | 2024 - 2025

M.Sc. Business Analytics | Robert Gordon University, UK | 2022

B.Sc. Computer Science | University of Colombo School of Computing, Sri Lanka
